## PROFESSIONAL FULL-STACK WEB DEVELOPER

Innovative and detail-oriented web developer with extensive experience in creating dynamic and responsive web applications. Proficient in front-end and back-end technologies, with a strong focus on building user-friendly interfaces and robust server-side functionality. Skilled in collaborating with cross-functional teams to deliver scalable solutions that meet and exceed client expectations. Passionate about staying updated with emerging technologies and best practices to continually enhance development processes. **Areas of expertise include:**

- ❑ Full-Stack Web Development
- ❑ UI/UX Design
- ❑ Database Architecture
- ❑ Web Performance Optimization
- ❑ Security Best Practices
- ❑ API Development
- ❑ Cloud Deployment
- ❑ Cross-Browser Compatibility
- ❑ Agile Methodologies

---

## PROFESSIONAL EXPERIENCES

---

### ❑ ICT Secretary

Ideal Science and Technology Aiming Research Council (ISTARC) | July 2023 – November 2024

- Spearheaded ICT initiatives, managing the club's technical operations and ensuring seamless digital workflows.
- Developed and maintained the council's official website, optimizing it for user engagement and accessibility.
- Conducted workshops and training sessions to educate members on web development and cybersecurity practices.
- Collaborated with team members to organize national events and manage ICT-related logistics effectively.

Enhanced the organization's online presence through innovative content strategies and social media integration.

### ❑ Freelance Full-Stack Developer

Self-Employed | 2023 – Present

- Designed and developed responsive websites and web applications using HTML, CSS, JavaScript, and frameworks like React and Node.js.

- Built RESTful APIs and integrated databases using MySQL and MongoDB to enhance project functionality.
- Collaborated with clients to gather requirements and deliver tailored solutions that meet their needs.
- Optimized web performance and implemented SEO best practices to improve search engine rankings.

Maintained version control using Git, ensuring smooth collaboration during team projects.

## ❏ Key Contributions :

### • Event Management & Leadership:

- **12th ISTARC Science & Technology Festival - 2024:** Served as an organizer, ensuring the seamless planning and execution of the event that engaged school and college students. Coordinated activities, managed logistics, and maintained communication among participants.
- **Event Website Development:** Designed and developed the official event website, enhancing the user experience by integrating registration tools, schedules, and real-time updates.

### • Web Design & Development:

- **ISTARC.org:** Managed and designed the official website for Ideal Science and Technology Aiming Research Council (ISTARC). Implemented modern design principles and interactive features to ensure an informative and engaging user experience.
- **ISEITrainingHub.com:** Led the design and development of the International Safety Engineering Institute (ISEI) website, featuring course listings, certification details, and e-learning resources. Currently working on enhancements and new functionalities to improve site performance and usability.
- **E-commerce Platforms:**
  - **Deeshiswag.com & Beingog.com:** Created, launched, and managed two successful online clothing brands, developing user-friendly e-commerce websites that offer product showcases, secure payment gateways, and efficient order processing.

### • Graphic Design & Visual Content Creation:

- **Poster & Promotional Material Design:** Designed numerous posters for events, workshops, and campaigns, contributing to visual branding and audience engagement.
- **Graphic Design for Online Brands:**
  - Worked as a graphic designer at Beingog.com and Deeshiswag.com, creating compelling visuals for product marketing, social media campaigns, and website assets.
  - Designed promotional and branding materials for ISEITrainingHub.com, ensuring consistent and professional visual identity across all platforms.

- **Comprehensive Design Skills:**

- Proficient in creating diverse design assets such as certificates, crests, identity cards, and sharoks, which played a significant role in enhancing the identity and professionalism of events and brands.

---

## EDUCATION AND TECHNICAL PROFICIENCIES

---

### ❏ Education :
